

ANNUAL PHYSICAL INSPECTION – NAVAJO NATION VEHICLES & EQUIPMENT

This is an urgent reminder regarding the Annual Physical Inspection and Inventory of all Navajo Nation Vehicles and Equipment

It is important that we have an updated Fixed Asset/Vehicle Asset Number for every vehicle. The Asset Number tag is typically located inside the driver's side door near the VIN number or near the vehicle's gas tank.

If you cannot locate an Asset Number tag, please provide us with the following information:

Navajo Nation Vehicle Number – located on the windshield
Vehicle VIN Number
Current location or department responsible for the vehicle, if available

If your vehicle does not have an assigned Fixed Asset Number or is not registered, or does not have an Asset tag, please contact us as soon as possible so we can assist with getting the vehicle properly accounted for and tagged.

Our goal is to ensure that all Navajo Nation vehicles and equipment currently in operation are properly identified, accounted for, and in compliance with the physical inventory requirements. Most vehicles will require a physical inventory inspection every two years.

We greatly appreciate your assistance in providing this information promptly. Your cooperation will help us make the inventory process faster, easier, and more accurate for everyone.

If you have any questions or need assistance locating the Asset Number or identifying a vehicle, please contact us.

Thank you for your prompt attention to this matter

Best Regards
